Contents of Volume 157, 1994

PART 1

Editorial note *S. Thompson and T. Holt* 1

The use of human immunodeficiency virus diagnosis information in monitoring the acquired immune deficiency syndrome epidemic *O. O. Aalen, V. T. Farewell, D. De Angelis and N. E. Day* 3

Bayesian forecasting of the human immunodeficiency virus epidemic in Scotland *G. M. Raab, S. M. Gore, D. J. Goldberg and C. A. Donnelly* 17

Estimating acquired immune deficiency syndrome incidence accounting for reporting delay *D. De Angelis and W. R. Gilks* 31

The use of backcalculation to estimate the prevalence of severe immunodeficiency induced by the human immunodeficiency virus in England and Wales *C. A. Sabin, C. A. Lee and A. N. Phillips* 41

A note on regional acquired immune deficiency syndrome projections *S. M. Gore, B. G. Evans, D. De Angelis and R. Salmon* 57

Mathematical models of the transmission dynamics of human immunodeficiency virus in England and Wales: mixing between different risk groups *J. R. Williams and R. M. Anderson* 69

An estimate of the prevalence of human immunodeficiency virus infection in England and Wales by using a direct method *J. Giesecke, A. Johnson, A. Hawkins, A. Noone, A. Nicoll, J. Wadsworth, K. Wellings and J. Field* 89

Completeness of reporting cases of acquired immune deficiency syndrome by clinicians *B. G. Evans and A. McCormick* 105

Epidemics: models and data (with discussion) *D. Mollison, V. Isham and B. Grenfell* 115

Obituaries: Philip Holgate; E. J. G. Pitman 151

Reviews 155

Subject index of obituary notices 1839–1993 *C. Elliott and R. W. Farebrother* 165

PART 2

Editorial: The effect of imprisonment on crime *R. Tarling* 173

An extension of the induced exposure method of estimating driver risk *J. R. Cuthbert* 177

Time series regression for counts: an investigation into the relationship between sudden infant death syndrome and environmental temperature *M. J. Campbell* 191

Statistics and quality improvement *G. Box* 209

Picturing the 1992 British general election *G. J. G. Upton* 231

Out for the count: a social scientist's analysis of unemployment statistics in the UK *P. Gregg* 253

Selecting confounders from covariates *G. M. Raab* 271

Armadale: a case-study in environmental epidemiology *A. B. Lawson and F. L. R. Williams* 285

Obituaries: Florence Nightingale David; Professor Catherine Marsh; David Salmond; Miss Jean Helen Thompson 299

Reviews 305

PART 3

Editorial: Coverage of the Great Britain census of population and housing *S. N. Simpson* 313
Deconstructing statistical questions (with discussion) *D. J. Hand* 317
Bayesian approaches to randomized trials (with discussion) *D. J. Spiegelhalter, L. S. Freedman and M. K. B. Parmar* 357
Modelling the health of Filipino children *A. Bhargava* 417
A conditional approach to point process modelling of elevated risk *P. J. Diggle and B. S. Rowlingson* 433
Multistate survival models for transitions and reverse transitions: an application to contraceptive use data *M. A. Islam* 441
Report of the Council for the session 1993–94 457
Obituaries: W. Edwards Deming; J. Tiago de Oliveira; Hugo Christiaan Hamaker; Robert E. Bohrer 497
Reviews 503
Video reviews 511
